

Galaxy Auto Clam Slider Press

The Galaxy Auto Clam Slider heat presses come packed with features including auto open and slide out platens. With robust design and even heat across the platen, these heat presses are built to last and deliver consistent results. The new quick release interchangeable platen system allows you to change platens in seconds, with six different platens available to purchase, there's one to suit your needs.

Quick release interchangeable platens to make the perfect press easy and quick

Auto open and slide out platens to minimise risk of burns

Even heating across the whole element for consistent results

Digital temperature setting for accuracy

Galaxy Auto Clam Slider Press

The original Galaxy Press is packed with features such as auto-open, pressure scale display and slide out lower platen to give you more space to set up and reduce the risk of burns. Perfect for businesses using heat press everyday. Now with interchangeable lower platens for more flexibility.
